Portfolio: <https://myportfolio.vercel.app>

TECHNICAL SKILLS

Programming Languages: Python, SQL, C++

Data Analysis: Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Feature Engineering, KPI Analysis, Statistical Analysis

Data Visualization & BI: Tableau, Matplotlib, Seaborn, Dashboard Development, Data Visualization

Databases: MySQL, SQLite

Microsoft Excel: Pivot Tables, VLOOKUP, INDEX-MATCH, Conditional Formatting

Tools: Jupyter Notebook, Git, GitHub, VS Code

Concepts: Data Transformation, Trend Analysis, Business Analytics

Frameworks: Streamlit, Flask

Problem Solving: Data Structures & Algorithms (C++)

EDUCATION

B.Tech in Computer Science & Engineering

Kazi Nazrul University, Asansol

2024 – 2028 | CGPA: 7.8/10

PROJECTS

BizPulse – Business Intelligence Dashboard

([GitHub](#) | [Live Demo](#))

- Built a Flask-based BI dashboard for sales, customer, inventory, forecasting, and profitability analysis using Python and Pandas.
- Implemented RFM customer segmentation, KPI analysis, revenue forecasting, inventory insights, and product profitability metrics.
- Deployed on Vercel with CSV upload and interactive Chart.js visualizations.

Sales & Product Performance Analytics

([GitHub](#))

- Built end-to-end analytics pipeline on **150K+ e-commerce transactions**, using **Python (Pandas)** for data cleaning, KPI engineering, and feature computation.
- Engineered key business metrics including **7-day rolling revenue**, **monthly growth %**, **Pareto (80/20) SKU contribution**, **revenue by source**, and **geographic revenue share**.
- Implemented **SQL queries (GROUP BY, JOIN, Subqueries, CTE, Window Functions)** in MySQL to compute monthly revenue, country-wise performance, and top product rankings.
- Generated dashboard-ready datasets and visualization reports to support revenue optimization and product prioritization decisions.

Netflix Content Analysis

([GitHub](#) | [Tableau Dashboard](#))

- Built an **interactive Tableau dashboard** to analyze Netflix content trends across movies and TV shows.
- Cleaned and processed data using **Python (Pandas)** to create analysis-ready datasets.
- Developed visualizations for **content distribution**, **yearly trends**, **top countries**, and **rating analysis**.
- Implemented **dynamic filters (Year, Rating, Type)** for interactive data exploration.
- Extracted insights on content **growth patterns**, **regional distribution**, and **movie vs TV show dominance**.

CERTIFICATIONS

- **Complete Machine Learning & Data Science Bootcamp** Udemy | Jun 2025 – Feb 2026 ([view certificate](#))
- **SQL for Data Analysis** –Simplilearn, 2026 ([View Certification](#))
- **Introduction to MS Excel** – *Simplilearn (SkillUp)* |2026 ([View Certificate](#))
